## **ANTlabs Service Selection Gateway selected for Tatung's city-wide WiMax deployment in Taiwan**

**SINGAPORE, August 1, 2007 -- Advanced Network Technology Laboratories (ANTlabs)** is pleased to announce that Tatung Co. has chosen ANTLabs' ezXcess™ Service Selection Gateway III to power its city-wide WiMax deployment in Hualien, Taiwan.

Hualien city, in eastern Taiwan, is building a WiMAX-based system to promote tourism and upgrade medical services. The infrastructure will be operated by Tatung, having been awarded the WiMax license in June.

To power its WiMax infrastructure, Tatung has selected ANTLabs for its excellent track record in enabling the city and country-wide Broadband infrastructures of major Telcos worldwide such as SingTel, StarHub, TMNet, OmanTel and YememNet.

"Tatung's confidence in our product is testament to ANTLabs' consistent formula of reliability and scalability, two factors of paramount importance considering the sheer size and scope of a metropolitan WiMax deployment with users numbering in the hundreds of thousands." said Mr Ang Kwang Tat, ANTLabs CEO.

With the inclusion of Taiwan, ANTLabs' carrier-grade ezXcess™ Service Selection Gateway is fast becoming a global de facto solution for provisioning wireless and broadband access in metropolitan deployments. ANTLabs' already serves Telco customers in Singapore, Indonesia, Malaysia and the Middle East.

### **About ANTLabs**

**Advanced Network Technology Laboratories (ANTlabs)** is focused on the research and commercialization of enabling technologies for wireless and broadband networks, visitor-based networking and network security solutions. Established since Oct 1999, ANTLabs is headquartered in Singapore, with dedicated staff and a committed global network of partners. Today, ANTLabs is a substantial market leader in Singapore, Indonesia, Malaysia and Singapore, with a fast growing presence in North America, Europe and the Middle East. Its network access gateways are a key business enabler for telco operators, hospitality establishments and corporate enterprises.
